## **Liberty Tire Recycling Appoints Angela Fornal as Manager of Environmental Programs**

*– Fornal Promoted to New Position; Will Help Lead Liberty Tire’s Environmental Initiatives –*

**PITTSBURGH, March 10, 2011** – Pittsburgh-based [Liberty Tire Recycling](#), the premier provider of tire recycling services in North America, is pleased to announce the promotion of **Angela Fornal** to manager of environmental programs. In her new role with Liberty Tire, Fornal will develop and support programs to help the company continue to operate its business in an environmentally responsible manner.

“Angela has been an important member of the Liberty Tire Recycling team for more than a decade,” said Jeffrey Kendall, CEO of Liberty Tire Recycling. “During her time with the company, she has spearheaded and managed many important company initiatives, including several environmental programs. Given the company’s ongoing commitment to environmental responsibility, Angela was the ideal candidate for managing all of our environmental programs.”

Prior to joining Liberty Tire Recycling, Fornal worked as a project scientist in the waste divisions of the engineering consulting firms Malcolm Pirnie, Inc., in New Jersey and Virginia; and Blasland, Bouck and Lee, Inc. in Pittsburgh. In these roles, Fornal conducted environmental site assessments, investigations and remedial design projects at hazardous waste sites and environmental compliance assessments and audits for commercial and industrial clients. She earned a Bachelor of Science in Environmental Resource Management at the Pennsylvania State University.

As a student at the Pennsylvania State University, Fornal worked for the university's Environmental Health and Safety Department implementing chemicals management and disposal practices in the laboratories. She also interned with the Pennsylvania Department of Environmental Protection for several years in the air quality division.

### **About Liberty Tire Recycling**

Liberty Tire Recycling is the premier provider of tire recycling services in North America. By recycling more than 110 million tires annually, Liberty Tire reclaims about 1.5 billion pounds of rubber for innovative, eco-friendly products. The recycled rubber produced by Liberty Tire is used as crumb rubber and industrial feedstock for molded products; as tire-derived fuel for industrial kilns, mills and power plants; and as rubber mulch for landscaping and playgrounds. The company maintains a nationwide network of processing plants, and comprehensive door-to-door collection services. Liberty Tire Recycling is headquartered in Pittsburgh, PA. For more information, please visit [www.libertytire.com](http://www.libertytire.com).
