

EQUI-TILE

EMC

A Liberty Tire Recycling Company

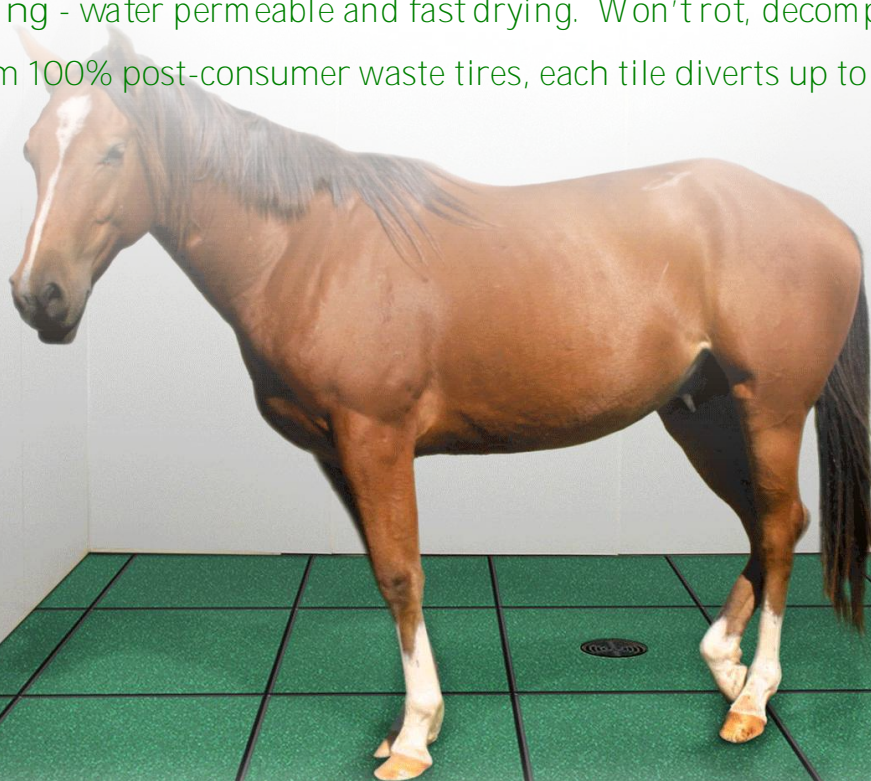

**Better Quality, More Choice
The EMC EDGE**

Enhanced cushion and better traction with Equi-Tile

Provide unmatched safety and comfort for your horses and livestock. Made from 100% recycled rubber, these one-inch thick interlocking tiles provide a slip-resistant, anti-fatigue surface when wet or dry. Choose this superior alternative to traditional flooring materials for better cushion and traction, all while reducing injury and bedding costs.

Features and Product Highlights

- **Superior design** - exceptionally durable and resilient; water permeable and fast drying to prevent rot and insects
- **Slip resistant** - wet or dry
- **Easy installation with modular design** - fully-adhered or floating applications for barns, wash racks, stables, breezeways and all other traffic areas
- Easy maintenance - requires only basic cleaning with a vacuum, broom or standard garden hose
- Long Lasting - water permeable and fast drying. Won't rot, decompose or attract insects
- **Molded from 100% post-consumer waste tires**, each tile diverts up to 1 full tire from our landfills

More Choice, Better Quality - The EMC EDGE

Our equestrian safety tiles transform traditional flooring into fatigue-free, safe surfaces to protect your horses and livestock - perfect for barns, wash racks, stables, breezeways and other traffic areas.
